The following broadcast item is the most pertinent that has yet been monitored with reference to the possibility of Soviet hoarding of bread grain.

CPYRGHT

"Today's editorial in PRAVDA is devoted to a most important economic-political question, the harvesting of the crop and delivery of wheat. A successful solution of this task will determine the volume of supplies of foodstuffs for the population, and raw materials for industry, and the necessary stockpiles for the State, the paper points out."
